

Class Creed

We are a **community** of diverse learners that are **confident** in expressing our ideas and **unique** identity. We are supportive of our peers and encourage them to succeed and share their voice. Together we will **accomplish greatness!**

We will be humble and **respectful** to those who have less or need our help. Everyone has a story to share and something to teach. We will represent ourselves as **role models**.

This journey is never ending and we will continually seek to improve. We are **not afraid of failure** and taking risks as we seek to grow. We learn from our mistakes and **support** community. We are **lifelong learners** that will make a positive difference in the world.
